SKILLS

- J2EE Technologies: Microservices, Docker, AJSC 6, Spring Cloud Contract, core java, JDBC, Java Beans, J2EE Spring Framework, Spring MVC, JDBC, REST / SOAP Web Services, SonarQube, Splunk logs.
- Web/Application Servers: Apache, Tomcat, JBoss Application Server
- Databases: Oracle, Mongo, MySQL, DynamoDB
- Version Control: SVN, Clear case, Git
- Build Tool: Apache Ant, Apache Maven, Gradle
- Message Services: Solace, SQS (Amazon Simple Queue Service), SNS (Amazon Simple Notification Service), Active MQ
- Testing: JUnit, Mockito, Power Mockito, Rest Assured, Spring Cloud Contract, ALM, Apache JMeter
- AWS services : DynamoDB, IAM, Security Groups, Cloud watch, EC2, Auto Scaling, Amazon S3, Elastic load balancer, CloudFront
- Cloud Technologies: Amazon Web Services (AWS), PCF (Pivotal Cloud Foundry), Azure
- Project Management Tools: Jira, TFS
- Code Quality: PMD, Find Bugs, Check Style, Checkmarx, Sonar Lint, Thread Fix
- Methodologies: Waterfall, Agile, TDD, BDD
- IDEs & FTP: Eclipse, IntelliJ, STS, Win SCP, Secure FX
- Others: Postman, SOAPUI, JSON, XML, WSDL, Thymeleaf, Apache Camel, common logging framework, Jenkins, GWT, IBM Extreme scale, Hibernate, HPQC (HP Quality Center), Citrix, VDI
- Basic: Scala, Docker, ReactJS, Python

EXPERIENCE

Senior Software Engineer

Wells Fargo International Solutions Private Ltd

📅 02/2022 - 08/2024 📍 Bangalore, India

- **Full ownership of backend microservices:** Develop, test and deploy.
- Replaced **Jenkins** with **Harness** CI, reducing deployment time by 35% and accelerating development velocity by 25% while cutting costs.

SUMMARY

Around 13+ years of IT Experience in building robust solutions across the full development lifecycle. Passionate about leading high-performing teams, architecting optimized systems, and aligning cutting-edge technology with strategic business objectives.

EDUCATION

MSc in Advanced Computer Science

University of Leicester

📅 09/2024 - 10/2025 📍 United Kingdom

Bachelor of Engineering (Electronics & Communication)

Anna University

📅 04/2005 - 04/2009 📍 Chennai, India

LANGUAGES

CERTIFICATION

Oracle Certified Professional, Java SE 6 Programmer

Oracle

AZ-900: Microsoft Azure Fundamentals, Oct 2022

Microsoft

AWS Certified Solutions Architect - Associate

Amazon Web Services

KEY ACHIEVEMENTS

Improved Deployment Efficiency

Reduced deployment time by 35% with CI pipeline migration.

Effective Team Leadership

Led a team to achieve 100% successful projects

Boosted Code Quality

Increased code quality by 20% through comprehensive reviews

Enhanced System Scalability

Handled peak loads of 1 million requests per hour with AWS

EXPERIENCE

Software Engineer

Wells Fargo International Solutions Private Ltd

📅 06/2021 - 01/2022 📍 Bangalore, India

- Migrated **batch scheduled jobs (Cron)** to **Kafka**-driven real-time updates, enabling instant balance processing vs. overnight delays.
 - Migrated legacy systems from **Java 8** to **Java 17**, **Spring Boot 2.3.6** to **3.x**, and **JUnit 4** to **5**, enhancing performance, security, and standardization via **common logging**.
-

Technical Lead

HCL Technologies Ltd

📅 01/2016 - 06/2021 📍 Chennai, India

- Led 7 engineers **cross-functionally** to deliver 100% on-time projects (***ING Bank, AT&T, CenturyLink***) using **AWS Lambda/API Gateway**, scaling to 1M+ requests/hour by resolving dependencies.
 - Architected **scalable** solutions by optimizing code quality, maintaining critical environments, and designing a high-throughput API to ensure **zero downtime** during traffic spikes.
-

Software Engineer

Hexaware Technologies

📅 05/2014 - 09/2016 📍 Chennai, India

- Engineered high-performance Java-based applications for enterprise clients including Delta Airlines and Aon Hewitt; resolved SEV3/SEV4 production incidents, maintaining 99.9% system availability.
 - Drove **20% improvement in code quality** by implementing standardized reviews, mentoring 5+ engineers, and establishing best practices that **reduced production defects by 35%**.
-

Software Engineer

Notus Soft Solutions

📅 10/2010 - 05/2014 📍 Chennai, India

- Designed and developed enterprise applications using **Java 6, J2EE, Servlets, JSP**, and **EJB 3.0**, improving system throughput by 35% for clients ***Rane Group and GV Builders***.
- Built **SOAP/RESTful web services** (JAX-WS/JAX-RS) to integrate modules, reducing data processing time by **25%**.
